

DELUXE CAFÉ BARRIER

1500, SINGLE-SIDED

Size

This template is 20% scale of full size, and must not be re-sized or scaled.

Template at 20% of full size: 278mm × 194mm (+ 6mm bleed)

When scaled 500% to full size: 1390mm × 970mm (+ 30mm bleed)

Layers

 **Instructions.** Can be turned off or removed before exporting your print-ready file, if desired.

 **Areas & Marks Overlay.** Must only be used as an overlay, and must not contain any design elements. Must be either turned off or removed before exporting your print-ready file.

 **Stitching.** Can be made visible to show where stitching will be located.

 **Design.** Should be used to create and supply your design.

Areas & Marks

 **Bleed line**
Artwork must extend to this line. Any space between this line and the safe area line must only be used as a quiet area.

 **Trim line**
The material is cut along this path.

 **Finished line**
Perimeter of the visible area, after finishing.

 **Safe area line**
Important content (text, logos etc.) must be kept within these lines.

 **Stitching line**
Stitching along the pole pocket. This is on a separate layer that can be viewed, if desired.

Artwork Requirements

Artwork must be supplied:

- With all template elements **removed** (such as lines, boxes and markings)
- Without any crop marks or other registration marks
- Using the full bleed area
- With any fonts outlined
- With any images embedded
- As either PDF (preferred), AI or EPS format

For a full list of artwork requirements, please refer to our website.

Considerations

Our thread colours are black or white. Our sewists will choose the most appropriate colour to complement your graphic. The only visible stitching when fitted is at the top and bottom of the left and right sides.

Currently, the dye-sublimation process does not allow for the use of Pantone colours. Any Pantone colours must either be converted to (or replaced with) CMYK colours before supplying your print-ready file.
